

School of Education - Research Priorities

Dr. Kathleen Moritz Rudasill

Senior Associate Dean for Research and Faculty Development

Since 2016, the SOE has:

Experienced an **over 40% increase in external awards** from **\$24.7M to \$37.4M**

Maintained a position as the **top school/college in external funding on the Monroe Park Campus**

Consistently punched above our weight in terms of grant dollars per faculty member - hovering around \$800-900K per person - putting us **9th in schools/colleges of education in the US**

FY26 goals:

- Grow from \$37.5M to \$50M in external funding
- Increase EFR from 10% to 20%
 - (\$2M in FACR)
- Increase proposals to 150 (FY22, 125)
- increase federal proposals to 75 (FY22, 46)
- increase NSF proposals to 18 (FY22, 5)

Center grants on the horizon

UCEDD - University Center for Excellence in Developmental Disabilities (~\$700K/year for 5 years, Administration for Community Living)

Hawkins Center for Excellence Grant (~\$1.6M/year for 4 years, US DOE)

NIDDLR - Rehabilitation Research and Training Center Grants (\$875K, Administration for Community Living)

PCORI - Patient Centered Outcomes Research Institute (~\$20M over 5 years)

Hurdles:

- FACR sharing and credit sharing limitations
- emphasis on medical campus for processes (grant submissions, IRB), thus slowing processes on MPC
- lack of space for research
